cleanly prepared by Machinery and properly fired.

In connection with above, there are well-appointed

LUNCHEON AND TEA ROOMS.

TEA

QUEEN'S GATE,
INVERNESS.

GILLANDERS' TEAS have already made a name for themselves over the North of Scotland, *not by extravagant and untrue statements*, but by being what they are represented, viz., **Honest Value**, and value which he challenges any firm to beat.

And following up the motto, "**The Highlands for the Highlanders**," K. A. GILLANDERS hopes soon to see the day when there will not be a family in the North of Scotland who will think of sending their orders for the refreshing beverage further South than the **Capital of the Highlands**, and towards accomplishing this object he invites you to send or call for samples of his

1/6, 1/8, 1/10, and 2/2 TEAS

and is confident that all giving them a fair trial will be convinced of their merits.

All that is stipulated for is "**Fair field and no favour.**"

His Teas are guaranteed to be always regular and equal to sample, and if any party thinks a parcel of Tea is not up to their expectations, the Tea will be received back, postage paid both ways, and the money refunded.

Orders from 5 lbs. up to 10 lbs. will be delivered post free. Larger parcels will be sent, carriage paid, to nearest station or pier.

Celebrated Table Waters

COPY OF ANALYSIS.

"LABORATORY 'AVALON,'
"PUTNEY COMMON, LONDON, S.W.,
"February 15th, 1899.

"DEAR SIRS,

"This is to certify that I have subjected to Chemical Analysis samples of the following Aërated Waters and Beverages, viz.: —'Double Soda Water,' 'Potass Water,' 'Unfermented Ginger Beer,' 'Champagne Nectar,' 'Double Lemonade,' 'Aromatic Ginger Ale,' 'Kola Champagne,' and 'Royal Seltzer Water,' all manufactured by you, and have also chemically investigated the Water and other raw materials used in their preparation. I have submitted to you an exhaustive Report setting forth the details of my examinations, and I have pleasure in stating the following opinion, which is based upon the results of my work:—The Water employed by you is of high organic purity, and especially well suited to the Manufacture of Aërated Beverages. The other raw materials are of the very best quality. That you exercise the greatest care in your Factory, employing thoroughly efficient plant, and working under hygienic conditions, is clear from the facts which is set forth in my General Report.

"There is no metallic or organic contamination at any stage of the Manufacture; your products are pure, wholesome, and well-made.

"I have rarely examined any Beverages which are so excellent in every respect, and never any better, for in my Laboratory Records are classified some thousands of samples from every part of the United Kingdom and Colonies.

"Yours faithfully,

"J. T. NORMAN, F.C.S."
